West Central Missouri "Show-Me-Select" Fall Calving Bred Heifer Sale

Saturday, May 18, 2024 ♦ 11:00 a.m.

Kingsville Livestock Auction ♦ Kingsville, MO

Auctioneer:

Jeremy Anstine

Sale Agent:

Kingsville Livestock Auction
Hwy 58, P.O. Box 127
Kingsville, MO 64061
816-597-3331 (Sale Day Phone)

Contacts:

David Hoffman, Regional Coordinator
816-380-8460 (office)
816-804-7952 (cell)

Sale Procedure:

The sale order was determined by drawing for position in the sale rotation. The consignors selected their respective lot to sell in each rotation. Heifers will be sold in uniform lots sorted according to breed type, size, and calving dates. Heifers selling together are expected to calve within a 45-day period. Heifers become the property of the purchaser immediately after the sale. Each animal will be at the purchaser's risk as soon as sold. Insurance will be available to be purchased at the time of settling on the cattle. The seller will aid in the loading of the cattle on instructions from the buyer, but at the buyer's risk. No cattle will be loaded until the conclusion of the sale. All fees will be collected by Kingsville Livestock Auction and are to be settled before loading cattle.

Viewing of Heifers:

Heifers will be available for viewing at each individual producer's farm prior to the sale. Please make prior arrangements with the individual producer for farm viewing. Heifers will be available for viewing at Kingsville Livestock Auction on Friday, May 19th after 2:00 p.m.

Guarantee:

The consignor guarantees bred heifers to be safe in calf. **If a heifer is proven by veterinary exam within 30 days after sale to be open, the consignor**

will replace the heifer or make a financial settlement with the buyer. The financial settlement will be up to the purchase price of the heifer, but not greater. **ALL GUARANTEES ARE MADE BY THE CONSIGNOR OF THE CATTLE AND NOT THE SALE COMMITTEE.**

Health:

All heifers in this sale have been Brucellosis calfhood vaccinated between 4 and 12 months of age. All heifers have tested negative for PI-BVD. All heifers in the sale have been pregnancy examined within 30 days prior to the sale. All heifers have received a one-shot immunity scour vaccine (Bovine Pili Shield) and treated for internal/external parasites. Necessary health papers will be available on all heifers after this sale.

Tags:

All heifers in the sale are identified by a special tag that carries the "Show-Me-Select" trademark and name. This tag indicates that the heifers have met all of the requirements of the Missouri "Show-Me-Select" program.

Online Auction:

The Show-Me-Select Bred Heifer auction can be viewed online at **CattleUSA.com** and heifers can be purchased over the internet. Please register as a potential buyer and view the sale online. For more information, call 816-597-3331.

Sponsors:

Many thanks and appreciation is given to Kingsville Livestock Auction, Rick Anstine and staff for their support and commitment to the Show-Me-Select Heifer Program. The crew at Kingsville is second to none and their assistance is greatly appreciated.

Requirements for 2024 “Show-Me-Select”

Replacement Bred Heifer Sale

These requirements are designed to minimize the incidence and severity of calving difficulty and protect against potential reproductive losses. Heifers must be bred to service sires at or less than established birth weight EPD maximums, have a minimum pelvic area of 150 cm² prebreeding or 180 cm² at pregnancy examination, be a minimum body condition score of 5 on sale day, and meet established health guidelines.

Spring 2023

- ✓ All heifers must be calfhood vaccinated for Brucellosis according to Missouri state regulations.
- ✓ Heifers are vaccinated for IBR, PI-3, BVD, BRSV, and 7-way Clostridia. Label directions concerning initial vaccination and boosters must be followed.
- ✓ Use of implants is discouraged. If heifers are implanted, only FDA approved products for replacement heifers are allowed according to label guidelines.
- ✓ Long-term use of MGA is prohibited. Use of MGA for periods up to 14 days to synchronize estrus is permitted.
- ✓ Internal and external parasites are controlled as needed.
- ✓ Heifers must be polled or de-horned and completely healed by sale day.

Fall 2023

- ✓ Prebreeding reproductive examination is performed.
Reproductive tract scored, pelvic measured, and heifer weighed.
- ✓ Heifers are vaccinated for IBR, BVD, Leptospirosis and Vibriosis between 60 and 30 days prior to beginning of breeding. All vaccinations must follow label directions.
- ✓ Tested negative for PI-BVD.
- ✓ Internal and external parasites are controlled as needed.

Spring 2024

- ✓ Heifers are pregnancy examined to determine breeding dates (confirm AI or natural service).
- ✓ Heifers are treated for external and internal parasites within 30 days of sale date. Products for internal parasite control must have label claim for all stages of the parasite life cycle.
- ✓ All sale heifers received a one-shot immunity scour vaccine (Bovine Pili Shield).
- ✓ Heifers are examined on sale day by a final screening committee to eliminate blemishes (scarred eyes, frozen ears, short tails, rat tails).
- ✓ Heifers must be a minimum body condition score of 5 (1 – 9 scale) on sale day.

Heifers must be bred to bulls with maximum birth weight EPDs/minimum calving ease EPDs for the breeds based on the current genetic evaluation at time of breeding for the respective breed association:

Minimum Calving Ease EPD	
Angus	7.0
Charolais	9.7
Gelbvieh/Balancer	13.0
Hereford	4.7
LimFlex/Limousin	13.0
Red Angus	13.0
SimAngus/Simmental	13.0

Registered Angus Heifers (14 head)

- Purebred, non-registered Angus heifers that represents 67-years of selection by Jack and Nancy Baker.
- Outstanding group of Angus heifers with tremendous performance.
- A portion of the heifers are Tier II heifers sired by proven, high accuracy bulls.
- Heifers are multi-generations of performance genetics bred to outstanding bulls and will make excellent cows bred for performance, mothering ability, longevity and fertility.
- All registered heifers have been genomic-tested and qualify as Show-Me Plus Heifers.
- 5-year "Show-Me-Select" Producer.

Projected calving dates:

- October 10 – November 15, 2024.
- Natural bred to Angus Bulls.

Angus Cross and Angus x Hereford Cross Heifers (36 head)

- Angus cross heifers are home raised, sired by Angus bulls from a Sydensgtricker Genetics with superior growth and carcass genetics, while maintaining emphasis on maternal ability.
- Red Angus cross heifers are large framed, growthy heifers that are bred for maternal ability and longevity.
- Steermates have performed very well in the feedlot, with excellent performance and high carcass value.
- These heifers are ideal for replacement females, raised on fescue and with maternal and mothering ability.
- 7-year “Show-Me-Select” Producer.

Projected calving dates:

- September 5 to October 1, 2024.
- AI or Natural-bred to Angus bulls.
